

## Welcome to where learning is fun!

Dear Parents,

We are happy and honored to have the responsibility to teach your child this year. Ms. Janine and I are ready to get started. We are hopeful and excited to have a good year. Over the next nine months there will be many changes in your child and some of them may include number and letter recognition, more refined motor skills, and enhanced social skills. The children will be presented with all the skills to prepare them to move on in their growth and development.

In September we will be working on making new friends, colors, shapes, and their recognition names in an all about me theme.. More information will be coming at the back to school night.

Please be sure to check our bulletin board outside the class to be aware of news from our room. Our activity note will be posted as often as time allows.

During the week of September 18, we will start show and tell and a heads up to parents: our system for show and tell is One special child assigned a day (given the day before) we go through all of the children before the second turn comes up again. We want to thank you for helping in the "taking turns" lesson.

Please remember to send in a complete set of replacement clothes in a ziploc bag labeled for your child. There are all types of accidents and we like to be prepared!

We look forward to meeting all of you and working with you on a good year.

Terry Rutkowski & Janine Coleman
