

February

Well February is starting off with a BANG! Eagles are in the super bowl! We will be cheering on our team by wearing green on Friday and (regardless of the outcome) on Monday as well. The rest of the month is full of different celebrations.

On Wednesday the 7th we will be celebrating the 100th day of school. Don't forget to wear your shirt. During that day we will be making ice cream Sundays for every student in the school (a little over 100). The students will also be using their counting by 10s skills to make a yummy 100-day trail mix. We will be mixing together different snack items such as popcorn and goldfish (with other yummy stuff) and grouping them by 10s till we get to 100.

During that week, we will also be practicing our writing skills and spelling by getting ready for Valentines Day. Each child will be making, writing and decorating their own cards for each of their classmates. Therefore there is no need to bring in extra Valentines cards for the day. Our Valentines Day Party will be on Wednesday the 14th. We will be making our own English Muffin Pizza for lunch. There is a sign up sheet outside the classroom.

The week of the 12th is a very exciting week! Monday and Tuesday we will be learning and celebrating Mardi Gras. The students will be creating their own masks and even making some King Cake. Wednesday is Valentines Day. Thursday and Friday we will be learning about Chinese New Year.

School will be closed on the 19th for Presidents day but when we get back we will jump right into the Winter Olympics. We will have some fun competition and do some fantastic STEM projects with different sports. Each student will get to pick a country to represent and we will also track the medal counts with a graph in the classroom.

We will close out the month with learning about some important people in African American History. During all this celebrating we will also start to learning about subtraction, money and telling time.
