

Beechwood School
Class 3
March 2019 Newsletter

Our class is doing a great job learning the Alphabet! Each time we begin a new letter, we go over the sound(s) it makes and try to come up with words and names that begin with the letter. The children enjoy trying to come up with words that begin with the letter and it is fun to see the “wheels in their heads” turning as they make the letter’s sound and try to match it with their ideas. Many of them are also making the connection between a toy or item in the class and the letter of the week and are excited to tell the teachers of their discoveries.

The students are also every enthusiastic about the opportunity to fill the Letter Bucket and to be the Star Student. A big thanks to our parents for helping them complete their stars and fill the bucket! Also, it has been fun having parents, grandparents and even special neighbor friends to come in and read or do crafts with us! This month we will also do a special unit on Outer Space., so look forward to hearing facts about space and space travel from your child.

Our Parent/Teacher conferences will be held the week of March 12. Most conferences do not take up the allotted 15 minutes. Should you have any particular concerns that may require additional time, we will do our best to accommodate your needs without interfering with the time of other parents.

Please feel free to supply a different change of clothes for your child as they have all certainly grown over the last few months. Please label spring outerwear and remember that the children should wear sneakers and socks to ensure their safety on the playground. We are all looking forward to nice spring weather, allowing the children more time outside “to get the wiggles out”!

Happy Spring (hopefully soon)!
