

The Beechwood School

April Newsletter

Dear Parents,

March blew in like a lion and swept us along into lots of fun and excitement. The children loved dancing to March music and making their own wind. You should have heard them huffing and puffing through their straws as they created beautiful wind pictures made with paint. They also made very cheerful and colorful kites to fly on a windy March day.

The future chefs of America enjoyed baking and eating delicious Hamantachens filled with yummy chocolate chips. The children's love of and devotion to anything chocolate is truly a reflection of their teacher's favorite food!

The children got quite a kick out of going on a Leprechaun hunt. The pesky Leprechaun "borrowed" our flag, plant, show and share basket, and part of our calendar, but we finally caught him and made him return everything.

The children were fascinated with learning about The Rain Forest. Who knew that frogs in the Rain Forest came in a rainbow of colors, climbed trees like monkeys, and that there is so much moisture that it rains there every day? We also learned how quickly the Rain Forest is disappearing and that all of us must do whatever we can to take good care of the Earth.

As you can tell, we had a fantastic March and are eagerly looking forward to a wonderful April. Just wait until you see our spectacular Rain Forest projects at the Art Show!

Wishing you lots of Warmth and Sunshine,

Mrs Ehrlich
and
Mrs Romero
