

Beechwood School – Class 3

June 2021 Newsletter

Dear Parents,

We have made it until June and the year has just flown by. The children are comfortable in the classroom and with their peers and we are also so proud of the children for their flexibility in wearing masks and adjusting to all of the Covid precautions. As teachers, we have come to know and enjoy their personalities and characteristics and have grown to truly love each child. This always makes the end of school session one of mixed emotions - alternating between excitement for the summer to begin and sadness at the end of such a good time together.

We have some special activities planned for this month. We will have a Super Hero Day on Friday, June 11. The children are encouraged to either come as a superhero, or any favorite character or to make up their own superhero. It will be a really fun day! We will also have a special end of the year Fun Day on Tuesday, June 15. We will be playing games on the grassy area outside our classroom or watching a movie inside depending on the weather and having fun snacks to eat. Then we will also celebrate the children who have birthdays during the summer on June 16th. If your child has a birthday in July or August, please feel free to spend in a special snack (individually wrapped, of course).

We as teachers would like to thank you for all of your help in making this year a good learning experience for the children and an enjoyable one for us as teachers. Thank you also for sharing your child with us this year. The children have done a good job getting ready for whatever academic setting they will be in next year. Please make sure that you congratulate them on all of their hard work. Have a fun and safe summer and please come back and visit us in the Fall!
